EDUCATION

Rensselaer Polytechnic Institute — Troy, NY

Bachelor of Science in Mechanical and Aerospace Engineering

August 2022 - May 2026

WORK EXPERIENCE

Engineering Intern — Schenectady, NY

SunThru

May 2026 - August 2026

- Upgraded research equipment for better test data.
- Worked on a PLC based system for industrial automation.
- Retrofit a large industrial machine for commercial use.

Junior Design Engineer — Tysons Corner, VA

Dreki Systems

May 2025 - August 2025

- Established manufacturing systems to facilitate rapid prototyping processes.
- Designed components using CAD software for various engineering projects.
- Collaborated with senior engineers to develop innovative design solutions.

Engineering Shop Intern — Castleton, NY

Piasecki Steel

June 2024 - August 2024

- Developed templates from engineering drawings to enhance machining accuracy of steel components.
- Assisted in fabrication of ladder and ladder cage for improved worker safety during bridge repairs in NY and surrounding areas.

PROJECTS

3D Printable Jet Engine

- Designed to be manufactured purely with additive techniques.
- Utilized gas expansion of fuel entering the system to aid in airflow.

Orbital Maneuver Solver

- Utilized python and orbital dynamics to show usability of certain formulas

EXTRACURRICULAR ACTIVITIES

Room Manager at The Forge -
2022 to Current

- Assists students in rapid prototyping and DFM
- Repairs and maintains machines

SKILLS

- CAD Modeling
- Project Management
- Rapid Prototyping
- Additive Manufacturing

RELEVANT COURSEWORK

Manufacturing Processes
Systems Laboratory 1

Space Vehicle Design
Capstone

Numerical Design
Optimization

Propulsion Systems

PROGRAM EXPERIENCE

- Siemens NX
- Fusion 360
- Autodesk Inventor
- Microsoft Suite
- Google Suite
- Mastercam
- MATLAB

NOTABLE ACHIEVEMENTS

Graduated Summa Cum Laude
from Waynflete High School

Organized and created the
Room Manager Union at the
Forge

Waynflete High School Stage
Manager for 3 Years
